Alarming Conditions in Topeka Butcher Shops.

Sensational Report Made by Councilmen.

PLACES NOT NAMED.

Mr. Green Resents Implication He Considers Personal.

Busy Night in the City Council Chamber.

Chicago packing house conditions on a midnight tour existing at a number of butcher shops in the city, says Councilmen Swenson and Shimer in a report submitted to the council last night upon the condition of the alleys and streets of the city. The report is just as bad as the conditions themselves. It says that in some of the rear of restaurants and butcher shops, that some of them are in very bad sanitary condition. Some of them are filthy and some have no sewer connections at all. At one place, the report says, there was no sewer connection and the man in charge stated that each day from two to four barrels of water, slops, etc., from the butchering were thrown out through the back way, to the brick pavement of the alley to run through the block and become a foul sickening stench.

This is a part of the report which Councilman Green read at the council chamber. "I think from a part of this report that an attempt is made to single out my place of business. At least from what I understand it looks to me like a case of a personal attack. I just want to say that the alley back of my place of business is swept with a broom sometimes as often as twice a day. It is just as clean as it is possible to keep an alley. I object to that part of the report but I am willing to accept the committee's report notwithstanding all of this. I will not vote against it."

The committee's report in detail follows: "Your committee on health and sanitation, to whom was referred resolution of Councilman Green, providing for the cleaning up of the streets and alleys of the city, at the expense of the city, beg to report that we have investigated this matter and would respectfully submit our findings and recommendations as follows: We find in the main and in general that most conditions are fair. We believe that the various departments, responsible for the conditions existing, are not factually lax in the performance of duty, but that all departments, if alive and energetic, can in a short time put things in a good condition. We find that there is considerable trouble in the taking care of stable manure. Tight boxes only should be permitted to be used in the alleys, as has been recommended by the city physician.

"Our ordinance should be so amended. The sanitary department should enforce this provision and if necessary arrest all persons who persist in putting manure or other refuse in the alleys without such tight box.

"We find that inside of the fire limits, mostly in the rear lots, there are some places where there are collections of wood, boxes, paper, trash, etc., which appear in some cases, at least, to be a nuisance. If these places are not cleaned up, we think the fire marshal should at once make an inspection of the rear of buildings and lots in the fire limits and that they be able to improve some of the conditions as per the ordinance governing his department.

"We find on inspection of the rear of restaurants and butcher shops, that some of them are in very bad sanitary condition. Some of them are filthy, some have poor sewer connections and some have no sewer connections at all. At one place, the report says, there was no sewer connection, and the man in charge stated that each day from two to four barrels of water, slops, etc., from butchering, were thrown out the back way to the brick pavement of the alley, to run through the block and become a foul, sickening stench. We recommend that the sanitary department, with the city attorney, enforce the ordinance in this regard.

"T. C. SHIMER.
"S. A. SWENSON."

Councilman Swenson asks for an investigation of the Grand and Crawford opera houses to see whether the repairs ordered by the council some time ago have been undertaken. A resolution introduced by Swenson was adopted as follows: Be resolved, by the mayor and council, that the committee on public buildings, together with the city engineer and fire marshal, and are directed to make a thorough examination of such buildings and report at an early date, and as to whether or not the repairs and alterations have been made and completed as ordered by council.

C. K. Holliday introduced an ordinance regulating the use of the streets by hucksters, which was adopted.

The ordinance follows: Section 1. It shall be unlawful for any huckster with cart or wagon or upon any street for the purpose of selling any vegetables, fruits or perishable merchandise, without first obtaining the written consent of the property owner of the street, and the building abutting on said street; provided that this ordinance shall not apply to regularly licensed hucksters engaged in selling garden truck from house to house.

The penalty provided for in § 2 is \$25. Councilman Montgomery wants to make a misdemeanor to maintain a street stand within a half block of the way of Ninth, Eighth, Seventh and Fifth streets and Kansas avenue, and within one block of Sixth and Kansas avenues. The ordinance has been referred to the streets and walks committee.

A special meeting of the council was held at 7:30 last evening to listen

DICE IS PRESIDENT.

Valley Falls Man at Head of Epworth League.

Arrangements are being completed by the Topeka District Epworth league which is holding its annual convention at the First Methodist church, this week, to send a missionary to the Philippine islands as a direct representative of this district league. The plan is to send each local church, this week, to send a missionary to the Philippine islands as a direct representative of this district league. The plan is to send each local church, this week, to send a missionary to the Philippine islands as a direct representative of this district league.

The meeting this morning was addressed by Mrs. Robert Ward, a native of Boda Camp, India, who was converted, and married her husband while he was a missionary in India. They have traveled extensively both in the United States and England where Mrs. Ward and her husband have lectured before religious bodies for a number of years. Up to within the past month Mrs. Ward has always addressed her audiences in her native tongue, her husband acting as interpreter, but of late she has been delivering her lectures in English and possesses a much better command of the language than many of the platform speakers of the present time. Her address which was delivered in English this morning was devoted mainly to a comparison of the customs and religions of India and this country and was an effort worthy of the applause of an enlightened audience.

The mission study class was conducted by Miss John A. Troutman this morning, who chose as her subject "Our People Perish of Want of Knowledge." G. A. Stevens spoke on "The Christian Stewardship League," an address by Rev. J. A. Staveland of Junction City completed the program.

The election of officers was held this afternoon and resulted in the following officers being elected for the ensuing year: President, S. Dice, Valley Falls; first vice president, G. A. Stevens, Topeka; second vice president, Mabel Reed, Topeka; third vice president, Mabel Reed, Topeka; fourth vice president, George E. Daugherty, treasurer, F. Cope, Topeka; junior league superintendent, Mrs. E. Thorpe, Topeka.

The program this evening will consist of a song service at 8 o'clock, address by Rev. J. A. Staveland, Topeka, at 8:15, an address by Miss Emma A. Robinson, Chicago, at 8:30, general superintendent of our leagues, at 8:45, a quartet, at 9:00, special music at these services by the choir and an evening quartet.

The meeting will close Sunday with the following programs for the afternoon and evening.

SUNDAY AFTERNOON.
3:00—Epworth league rally.
4:00—Address by Rev. W. C. Evans, D. D., pastor First church, Topeka.

Address—Rev. Edwin M. Randall, D. D., general secretary, Chicago.
4:30—Junior league rally.
Address—Miss Emma A. Robinson of Chicago, general superintendent of our leagues.

Special music at these services by the choir and an evening quartet.
SUNDAY EVENING.
8:00—Song service.
8:15—Address by Rev. Edwin M. Randall, D. D.

Boys Charged With Theft.
Early Pasley, 16 years old, and Granville Davis, aged 12, were arrested by the police today for robbing Gouner's store at 819 East Fourth street. The boys sneaked into the store while the proprietor was busy and stole \$8.50 in money and \$140 in checks. Before they were captured they had spent most of the cash, having bought a boat and provisions for a cruise down the river.

Captured in St. Joe.
Sheriff Lucas went to St. Joe this afternoon to get Ed Murray, wanted here for larceny from a dwelling. The charge is more than a year old, but Mr. Murray has been languishing in the St. Joe jail for some offense committed over there. He was released this afternoon, and Lucas will bring him back here to stand trial for the charge against him.

Resorts Are Raided.
Two alleged disorderly houses were raided by the police last night. At one they caught May Edie, Arch Strain, John Stokes, W. L. Coffran and C. W. Bell. The keeper, Lou Arnold, was sick and was not taken with the others. The other place, a negro resort, yielded Mattie Johnson, keeper, Ida Simmonds, "Doc" Williams and James Edwards, inmates.

Killed at Poor Farm.
John H. Bradbury, an inmate of the county poor farm, fell down a flight of

stone steps leading into the basement of the house on the poor farm at 12:20 yesterday afternoon, fracturing his skull and suffering from concussion of the brain. He died during the night despite the efforts of Dr. Nicoll, the county physician, who tried in every manner to save the man's life. Bradbury was subject to fits and fell while suffering an attack. He was about 50 years of age.

LEADERS ARE HERE.

Republican Executive Committee Is in Session.

Today the Republican executive committee appointed by Chairman S. C. Crummett met at the Copeland to decide how big the assessment will be on the various candidates. The general plans for the campaign are also being discussed, and all the preliminary arrangements made for opening the campaign. The speakers' bureau will not be instituted at this time, however.

At large—D. W. Maltby.
First district—C. Leland.
Second district—O. D. Peterson.
Third district—J. S. Gilmore.
Fourth district—W. H. True.
Fifth district—W. W. Caldwell.
Sixth district—C. J. Evans.
Seventh district—Morton Albaugh.
Eighth district—R. H. Downing.

All of the candidates for state offices except Mark Tully and George W. Kaniavol are expected to be present. W. J. Fitzpatrick and C. E. Denton arrived this morning.

SECRET IS OUT.

The Marblehead Has Gone to Guatemala to Investigate.

Washington, June 9.—Secrecy no longer surrounds the movements of the United States cruiser Marblehead, which has sailed north from Panama. At the request of the state department the Marblehead sailed for San Jose, Guatemala, to investigate the movements of the American steamer Empire, which is reported to have landed recruits from San Francisco and arms and ammunition for the use of the revolution against President Cabrera.

Disquieting dispatches reached the state department today from Guatemala concerning the revolution. The enemies of the present administration are active in several parts of the republic, but it is impossible to discover the exact cause of the movement and the directing force.

HOT, DRY, NO RAIN PROSPECTS.

An Eight Mile Wind Affords But Slight Relief.

Though the mercury is hanging around the mark, the heat today does not seem to be so great as it has at numerous times this season when the mercury has been several degrees lower. The sky is a deep blue and there is not a cloud visible in any quarter, and the sun has a direct stroke at the earth, though it does not seem to scorch and wither as it has done at other times.

An eight-mile-an-hour wind, which is really but little more than a breeze, is blowing from the west, and it does much towards tempering the heat to the fat man.

The weather department promises no relief other than the drizzle or the heat, and their guess is that Sunday will be much the same day that this has been, with plenty of sunshine, a little wind and heat to burn.

The temperatures today were:
7 o'clock 77 11 o'clock 84
8 o'clock 82 12 o'clock 84
9 o'clock 81 1 o'clock 85
10 o'clock 82 2 o'clock 85

LOCAL MENTION.

Prof. S. G. Watkins will address the colored Y. M. C. A. tomorrow afternoon at 2 o'clock on "Righteousness Exalteth."

Mrs. M. D. Bush, deputy city clerk, is very seriously ill at Stormont hospital.

The Auditorium and the city hall will be piped for natural gas. Conklin & Gustafson have been awarded the contract at \$255. Other bids submitted were John Sheehan & Son, \$952, and Geo. W. Sutherland & Co., \$973.

Mr. William Y. Sanborn and Miss Gertrude Cels, well known young people of this city, were married at the parsonage by Dr. W. C. Evans this afternoon.

"Yes," said Miss Ann Teek, coolly, "I am free to confess this much, Mr. Kallow has expressed me in the ordinary regard for me and I believe he appreciates my affection for him."

Yes," replied Miss Knox, "his own mother being dead, I suppose he does." Philadelphia Press.

Isabel Worrell Hall Gives Her Experience With Canned Meat.

Washington, June 9.—The beef inspection hearing before the house committee on agriculture was begun today by listening to Representative Garner (Tex.) who made a plea for speedy action.

H. Cowan, of Ft. Worth, Texas, attorney for the Texas cattle raisers' association, was next heard. He detailed the extent of the Texas cattle industry. Mr. Cowan said that the cattle raisers had their differences with the packers and had not got the best of them, yet in this question the interest of the nation and packers was identical.

He read a telegram from John T. Lytle, president of the cattle raisers' association of Texas, which read: "Present agitation has seriously depressed cattle business. Universal impression that cattle values will suffer from \$4 to \$5 per head decline."

Representative Haughen (Ia.) asked Mr. Cowan if he had read the president's message which estimated the cost of inspection at eight cents a head.

"But we don't want to pay it," said our reason," replied Mr. Cowan. "But rather than do without the law we would be glad to levy the cost on the cattle."

Mr. Haughen said every member of the committee, so far as he knew, was in favor of the government paying the cost. This cost has been estimated at \$100,000,000.
